Khalil es un joven desarraigado que vive en la periferia de la ciudad, allí donde los polígonos industriales confluyen con el río y la marisma. Khalil se busca la vida como puede y pasa los días junto a un viejo furto, que comparte una casa en la orilla del río con un hermano con el que no se habla desde hace años. En las orillas de la marisma, las mareas marcan el tiempo del amor y el desamor, de la amistad y la venganza.

Khalil is a young man torn from his roots who lives on the edge of town, where the industrial estates merge into the river and the marshes. Khalil gets by as best he can and spends his time with an old poacher, who shares a house on the riverbank with a brother he hasn't spoken to in years. On the banks of the marshes, the tides mark the time of love and heartbreak, of friendship and revenge.
